

Background (Formation & Launching)

The IoDT was incorporated in September 2010. Its formal launch was by **H.E. Mohammed G Bilal**, the Vice- President of Tanzania in May, 2012 at the Dar es salaam Grand Hyatt.

The Institute is a voluntary and unique nation-wide membership organization for directors in their 'individual' professional capacity. Its mission is to champion best business practices and effective corporate governance – through professional development and certification programmes, workshops, networking events, advocacy and thought leadership – supporting Tanzania as an attractive destination of foreign direct investment. It is also the voice of Directors (both private and public sector enterprises). The specific role that the IoDT wishes to play in society is expressed through its vision (see below).

It's slogan

“Better directors, better boards, better business”

is truly its 'reason of being' plus the belief that that will eventually lead to a better and prosperous Tanzania.
