

Certified Directors List and Active Members of the IoDT

The Institute of Directors in Tanzania (IoDT) is a unique member-based organization whose mission is to promote excellence, growth and success of Tanzania's organizations by giving tools i.e., professional development to the directorship fraternity to do their job effectively. We also push for effective policy and provide a networking platform to directors and corporate leaders.

In the last two years we have not only seen increased fresh appointments of directors in public sector but also an increasing challenging and dynamic business environment. This double dose of reality requires a more professional and multi-dimensional "new breed" Tanzanian director whose role and position has become demanding, posed greater risks and presented potential liabilities. For a fresh or "repeat" director, conscious effort and keeping abreast of best practices has become crucial. Whether a fresh or "repeat" director, you shall be served well by becoming aware of changes in practice, legislation, and current thinking so as to ensure that your board operates most effectively and your organization stays resilient and performs impressively.

Obviously, a focused and professional training from the IoDT can deepen your overall competence and greatly benefit you and your organization.

Our Certification in Directorship (CiDir) programme imparts you with an appreciable grasp, competence and practice of world-class governance. It trains you to strive for diligence, commitment, skills and paramount ethical standards based on utmost personal integrity and accountability. Your commitment to effective stewardship while discharging governance and other responsibilities shall improve. The "MloDT" (Member of the IoDT) is a badge of honour marking the respect and underlining your credentials as a professional director and leader.

Hereunder is the latest Register of Certified Directors and active members of the IoDT:
